Zipfizz(TM) Liquid Shot Now Available

-- 4 oz. drink to deliver quick, natural energy boost

MILL CREEK, Wash., Dec. 5 /PRNewswire/ -- Zipfizz(TM) Liquid Shot, a 4 oz. serving that delivers a big energy boost, is now available, the company announced today. Zipfizz Liquid Shot joins the growing line of Zipfizz products that includes the original Zipfizz powder form, which has become one of the most successful energy drinks in the marketplace.

Zipfizz Liquid Shot contains a balance of B-12 and electrolytes, which help replenish the body. The natural, healthy energy drink contains no sugar and delivers fast results without all the liquid.

Zipfizz Liquid Shot comes in a 4 oz. bottle, which can be consumed immediately within a few gulps unlike 16 oz energy drinks. "Larger energy drink servings take longer to consume and can cause bloating," said Riley Livingston, president and CEO of Zipfizz. "The liquid shot makes you feel alert, energized and refreshed in a short period of time. It is great for energy drink enthusiasts looking for a quick boost of energy in a small serving that is delivered in a healthy, natural way."

Livingston said he expects everyone from athletes to students to office workers to embrace the Zipfizz Liquid Shot.

Zipfizz Liquid Shot is available at select Costco Wholesales stores and other retailers. Additional Zipfizz products available include the powder form in a single-serving tube in three flavors: Pink Lemonade, Citrus and Berry. In addition, the company recently launched Immune Fizz(TM), a daily immune boost that features 28 nutrients and vitamins. For more information, please visit <http://www.zipfizz.com> .
